9	Alleghenies	36	22	10	68	162
10	Tennessee	12	6	3	21	51

About the Team Cup Award

The **Team Cup Award** represents the pinnacle of collective athletic achievement at the Transplant Games of America. Designed to recognize comprehensive team performance across both Division 1 and Division 2 competitions, the award honors the team of 10 or more registered competitors that achieves the highest overall efficiency based on **medal points per capita** earned throughout the competition weekend.

Scoring Methodology & Criteria

Points are allocated toward overall Team Cup standings using a standardized weighted scale based on final event placements:

- **Gold Medal:** 3 Points
- **Silver Medal:** 2 Points
- **Bronze Medal:** 1 Point

Per Capita Calculation Formula

To ensure fair and proportional competition among teams of varying roster sizes, final standings are calculated as follows:

$$\text{Final Team Cup Score} = \frac{\text{Total Medal Points Earned}}{\text{Total Registered Team Members}}$$

Team Sports Scoring Policy

For team-based sports and multi-person group events (e.g., basketball, volleyball), point contributions toward the Team Cup are capped at the value of a single medal placement, regardless of roster size:

- **Example A (6-Player Basketball Team — Gold Medal):** All 6 roster members receive individual gold medals. The team earns **3 points** toward their Team Cup standings.
- **Example B (12-Player Volleyball Team — Silver Medal):** All 12 roster members receive individual silver medals. The team earns **2 points** toward their Team Cup standings.
